E-commerce marketplace

The e-commerce market has exploded with growth; 2020 saw ten years of expansion in just three months- with 150 million people shifting to online spending for the first time. The accessibility of creating an online store combined with rapid growth has created an extremely competitive environment for online retailers.

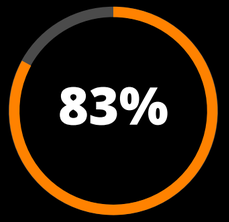

Worldwide cross-border sales increased globally by 21%

With the growth in cross-border sales, there is a greater emphasis on the importance of being able to ship at scale and globally.

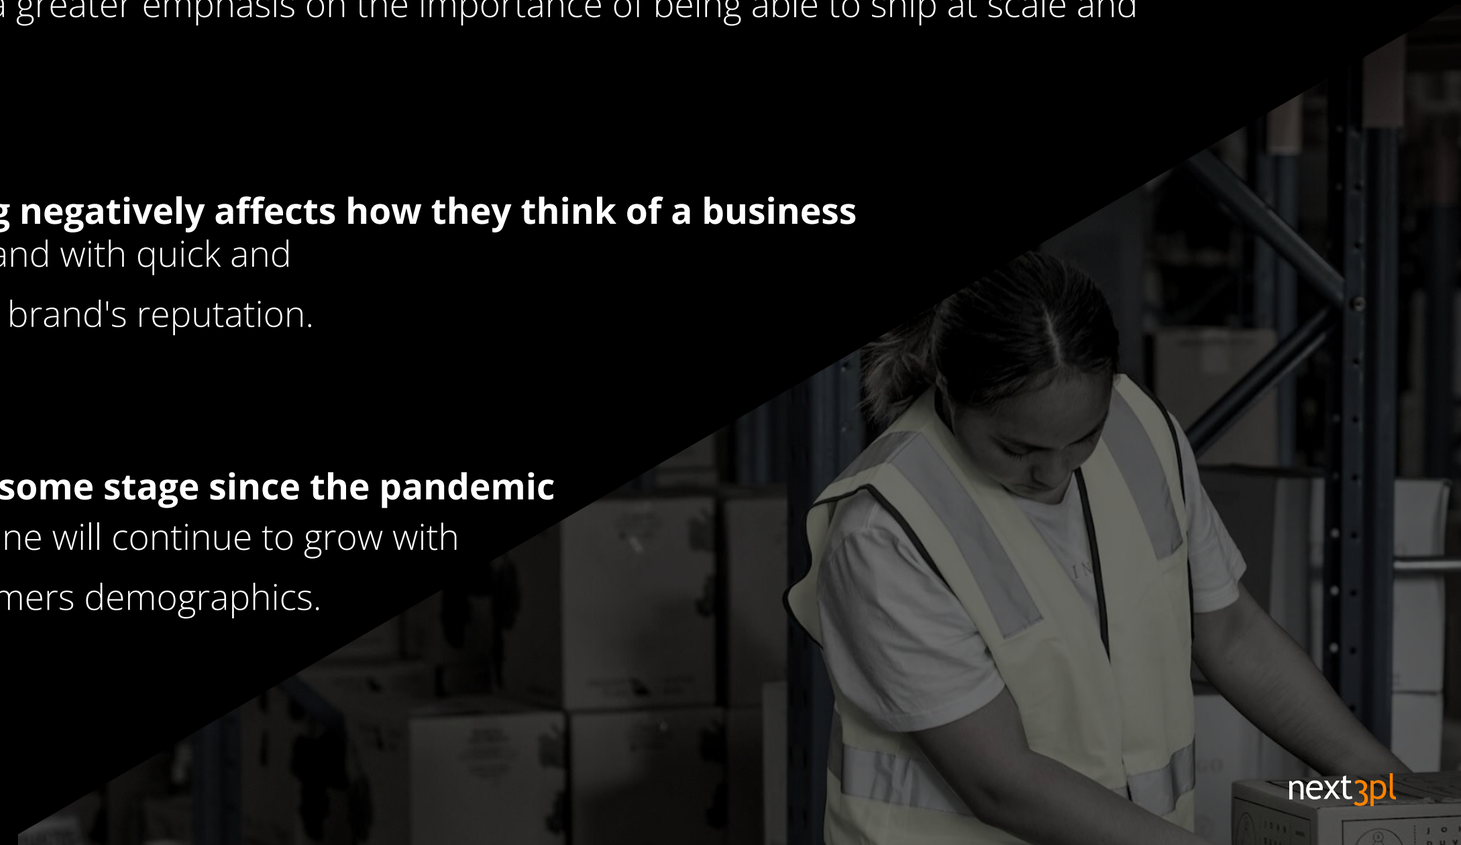

70% of consumers agree that poor shipping negatively affects how they think of a business

Businesses need to respond to consumer demand with quick and accurate shipping, or consequently impact your brand's reputation.

84% of consumers have shopped online at some stage since the pandemic

The increasing shift in consumers shopping online will continue to grow with increasing adoption rates amongst most consumers demographics.

WHO WE ARE

Next3pl is a privately owned Logistics and Supply Chain specialist service provider founded in 2005, focusing on the development and implementation of customised Supply Chain solutions

45,000+

Weekly orders being shipped

SKUs currently being processed

350,000+

400+

Number of online retailers served

next3pl

The core focus of next3pl is the design and implementation of customised warehousing solutions and services suited to our customer's requirements.

Our goal is to remain agile with our solutions. This agility includes designing our services to flex with our customers.

Our Head Office located in Sydney has experienced consistent, organic growth and created opportunities for next3pl to expand it's footprint with more flexible service offerings.

WHAT IS

next3pl+

Next3pl+ is a comprehensive logistics and multi-location warehousing solution designed to pair your workload with the most efficient location, with centralised management controlled by next3pl.

Best fit for your profile

With multiple providers, next3pl+ has been designed to ensure your goods are matched with the best space. Large or small, you can be confident of high-quality service.

Complete visibility

By using the next3pl customer portal, you will have full visibility on your entire inventory. At the click of a button, confirm the status of any order, in any location.

Location, location, location

We will analyse your customer data and next3pl+ will allow your goods to stay close to the market. Orders fulfilled from the most efficient location.

With next3pl+, your logistics is covered end-to-end, with simplified communication and visibility.

Take advantage of our network of third-party vendors operating as though all under the same roof in Australia.

Select your provider in each location based on your preference and requirements.

Safeguard performance issues by having the ability to enable and disable a site.

Divert orders from varied locations depending on product availability.

Centralised customer service managed by next3pl - one point-of-contact regardless of goods location.

Next3pl+ includes a number of carefully selected partner warehouses chosen for their ability to uphold the same high level of service as our own warehouse

- Partner warehouses experienced in e-commerce fulfillment
- Performance managed by logistics experts at next3pl
- VIsibility for all locations available in one customer portal
- Simplify your accounting workload with a single vendor choice
- Multiple vendors across various locations

By analysing location, service, capacity and experience, next3pl+ provides a multi-location solution for growth and development of your brand.

LOCATIONS

The next3pl+ network allows comprehensive coverage Australia-wide. Whatever the location, you can be sure we have a partner available.

Carefully selected locations provide flexibility while providing consistency in service. If your goods are under a partner's roof, it is under our roof.

Next3pl have partner locations in:

- Australia
- United Kingdom
- USA
- Canada
- Europe

TECHNOLOGY
